Hi David,

Thanks for your email. I'll be working remotely tomorrow, but if you want to give me a call around 10am on my cell phone, that'd be great.

Hollin

Hi Hollin,

I got your voice mail message yesterday and have not had a chance to respond today, but will give you a call tomorrow morning. Please let me know if there is a particular time that would be better.

Thanks,
David

Sounds great, David. Didn't realize you were out of the office—I'll be in touch next week.

Hi Hollin, let's connect when I am back in the office (Aug 4) and we can arrange a mutually agreeable time to meet.

Thanks,

David

Hello David,

Thank you for your call Monday offering to meet with my organization to discuss the California Underground Injection Control program. If you are available, we would like to meet with you on Thursday (tomorrow), July 30, at 4pm. I realize it's a bit short notice, but we are hoping to meet at a time that works for everyone's busy schedules, and Thursday seemed to be the best date.

Here is a proposed agenda for the meeting:

I. Status of the state's review of underground injection wells.

II. Aquifer exemption process and discussion of recent information regarding water quality in protected aquifers

III. District 1 (Cypress) report

IV. Rulemaking proceedings

V. EPA's Role in Oversight and Enforcement

We look forward to our conversation. Also, we would like to include another organization, Earthjustice, in the discussions. I hope this is ok. Please let me know of your availability.

Many thanks,

Hollin
